Great Loss of Life Reported in Michigan Towns.

EXTENT OF THE HURRICANE.

Probably One Hundred People Killed Outright—Many Buildings Demolished and the Property Loss Will Mount Into the Hundreds of Thousands—A Partial List of the Victims.

OXFORD, Mich., May 27.—From reports that continue to come in from adjacent points the full force of the fierce wind that swept this part of the state is beginning to be appreciated. Everywhere is devastation. Villages that were the homes of contented citizens are today desolate sites and maimed and bruised fathers, mothers, brothers and sisters mourn for those who met death in the twisting, grinding, resistless wind. The death roll in this vicinity may run to the hundred mark, for many homes that were on the edge of the cyclone suffered from its fury. With nearly all the telephone and telegraph wires down it is not easy to get particulars.

The following is the revised list of the killed and injured:

The list of dead:

The Bermuda Again Escapes Capture. PUERTO CORTES, Honduras, May 27.—The British steamship Bermuda, which sailed from Jacksonville, Fla., on April 26, with a cargo of arms and ammunition for Cuba, and which was chased by a Spanish gunboat off the coast of Cuba after having landed her cargo, has sailed from here for Philadelphia with a cargo of bananas. There is said to be a Spanish gunboat in these waters which has been on the lookout for the sailing of the Bermuda, but she got away from here without any interference so far as is known.

TARIFF LAW CHANGED.

Rebate on Alcohol Used in the Arts or Medicinal Compounds Repealed.

WASHINGTON, May 27.—The house yesterday, by a vote of 165 to 69, passed the bill for the repeal of Section 61 of the present tariff law providing for a rebate on alcohol used in the arts or medicinal compounds. An amendment was attached to the bill providing for a joint commission to consist of three members, each house to examine and report on all questions relating to free alcohol at the next session.

The opposition to the measure came almost entirely from the eastern and New England states. An analysis of the vote shows that 56 Democrats, 104 Republicans and 5 Populists voted for the bill, and 60 Republicans and 9 Democrats against the bill.

The senate amendments to the general deficiency bill, excepting the French spoliation claims and claims under the Bowman act, were disagreed to and the bill sent to conference.

In the Senate.

WASHINGTON, May 27.—Tariff and finance each came in for a share of consideration in the senate yesterday. Early in the day Mr. Sherman succeeded in having the filled cheese bill taken up, whereupon Mr. Dubois (Rep., Ida.) offered an amendment adding 75 cents per barrel to the tax on beer. The senator said his amendment was intended to test the sincerity of senators who expressed the patriotic desire to aid the treasury by raising more revenue.

Mr. Sherman opposed the amendment as a skillful means to defeat the cheese bill. His motion to defeat the Dubois amendment was defeated, yeas 25, nays 30. On the question of adopting the amendment the debate became general. Senators Mills and Gray supporting and Nelson, Aldrich and Vilas opposing it. The bill and pending beer amendment were displaced at 2 o'clock by the bond bill which was advocated by Mr. Pritchard (Rep., N. C.) and opposed by Mr. Lindsay (Dem., Ky.).

A bill was passed to pension, at \$75 a month, the widow of General George Spencer, at one time United States senator from Alabama.

PRESBYTERIAN ASSEMBLY.

The Christian Endeavor Society Wins an Important Victory.

SARATOGA, May 27.—Christian Endeavor won a victory yesterday in the Presbyterian general assembly. Those interested in the movement were in the majority, and they exercised their power. They eliminated most of the report of the committee on the relations of young people to the church, and discharged the committee. The sum total of the assembly's action comprised the adoption of "A statement of relations between individual societies and churches," which was directed to be read in the various societies, and of a provision for the collection of Christian Endeavor statistics. Provision was also made for a committee to report on the brotherhood of Andrew and Philip and on boys' brigades.

The discussion on the report on home missions showed that the assembly was on the brink of an outbreak on the subject of a new Presbyterian building in New York. The action finally taken has been variously interpreted. It contemplated the inauguration of synodical sustenance of the mission work within the bounds of each synod, and some of the members of the assembly have expressed themselves as believing this to be the first step toward the disintegration of the board of home missions. The resolutions provide for closer presbyterial inspection of requisitions on the mission board; for a movement toward self-support within each presbytery and synod, and for a committee of nine to advise with the board as to retrenchment, the causes of the debt, and improved methods of retrenchment.

Elmer Davis' Victim.

WINCHESTER, O., May 27.—Late information from Pleasant township, Brown county, the scene of the cutting affray between William Drake and Elmer Davis, the two farmers who quarreled over a fence line between their farms, is that Drake, although still alive, is in a dangerous condition and the affair will probably result in murder, as the wounded man was literally cut to pieces and can not possibly recover. Davis was captured by a posse in a few hours after doing the cutting and has been safely lodged in jail.

Burglar With a Gun.

ELYRIA, O., May 27.—A burglar, who was quite handy with his gun, was found by a servant searching the chambers at the residence of Mr. Harry Davies, on Grace court, early in the evening. The domestic gave the alarm, and as the burglar ran from the house he fired several shots at people, but his aim was bad and after crossing a dam in Black river he was lost track of. A reward of \$100 has been offered by Mr. Davies for the capture of the robber. Nothing of value except a valuable ring was taken.

Inauguration Day in Rhode Island.

NEWPORT, R. I., May 27.—Charles Warren Lippitt was inaugurated as governor of Rhode Island yesterday. In the organization of the legislature F. W. K. Allen of East Greenwich was elected speaker of the house.

His Last Sleep.

PARIS, Ky., May 27.—Isaac Wasson, colored, fell asleep on the Louisville and Nashville railroad near the depot here yesterday and was horribly mangled by the northbound train, which passed over him.

WALLING ON TRIAL.

Charged With Complicity in the Pearl Bryan Murder.

JACKSON'S PARTNER IN CRIME.

The Usual Big Crowd About the Newport Jail, but Only a Few That Sought Admission—The Work of Securing a Jury. Four Challenges on the Part of the State—Names of Those Selected.

NEWPORT, Ky., May 27.—The trial of Alonzo Walling, for the murder of Pearl Bryan, began yesterday. The crowd outside the courthouse was numerically greater than any that had gathered at the Jackson trial, but in the courtroom there were only a few spectators. Walling attracted the same attention that his colleague in crime had attracted two weeks ago.

Colonel Washington and W. T. Shepherd, counsel for the defense, and Colonel Lockhart, Colonel Nelson and Ramsey Washington, for the prosecution, were present when court was convened. Colonel Nelson was the recipient of a huge bouquet of roses from an admirer.

Siles Hays, the Greencastle attorney who is to assist in the prosecution, will not arrive until a case in which he is interested at Greencastle is concluded.

Of the 100 jurors summoned all responded except one, W. H. Timmerman, who has been dead for more than a year. Two were excused for not being housekeepers, one by reason of being a member of council, and one, James Pagan, of Newport, as having been a member of the grand jury that returned the indictment against the defendant. Six were excused from serving owing to their physical inability, substantiated by physicians' certificates, four as they did not hear well, and three on account of illness in their families. Twelve offered as grounds for excuse that their private business demanded their attention. These were all refused.

At 10:10 o'clock Walling was brought into the courtroom. He was neatly dressed and had a very prepossessing appearance.

Both sides announced themselves as ready for trial.

Walling's brother Charles, a farmer, living near Oxford, was in the courtroom.

The individual examination of persons was begun by calling 12 men, the commonwealth and defense both waiving the right to a challenge of the panel.

James Bohn was excused, as he was opposed to capital punishment. James Kidney had an opinion that the evidence could not change, and he was excused.

A formed opinion that the evidence could not change excused Frank Emerson. John F. Otting was excused for the same cause, as were James Neuspickel and Charles Theis.

John M. Sorster was excused, as he understood English very imperfectly.

George W. Silvers had formed an opinion that precluded the possibility of giving the defendant a fair trial. Frank Veith was excused for the same cause, as was Conrad Koch.

Theodore Martz had an opinion as to the guilt or innocence of the defendant that the evidence could not change.

The first panel was exhausted without a juror being secured. Another panel was called and sworn.

Adam Haas had formed an opinion that the evidence could not change as to the guilt of Walling based on the evidence of the Jackson case, as appeared in the newspapers, and was excused.

The 14th one examined was accepted, withstanding a rigid examination of both sides. He was Henry Dietz, a carpenter, living at Cote Brilliant, a suburb of Newport.

William Lipert was excused he as had an unchangeable opinion.

The next juror-elect was accepted. He was Charles Peters, a brick mason of Dayton, Ky. He said he was opposed to capital punishment on circumstantial evidence.

Ben Helman of Bellevue was also accepted. He is a porter employed in Cincinnati.

John H. Grift, a laborer out of a job, living in Bellevue, was accepted.

John D. Girty was excused on account of his advanced age, and John Hetch and John Ostermeyer by reason of having formed opinions that could not be changed. John Gamel had his mind made up that he would not serve on the jury, and was excused. William Applegate and Thomas Hughes had each formed such firm opinions that the evidence could not be changed.

The second panel was exhausted, but resulted better than the first, four jurors being secured. William R. Smith had an unchangeable opinion and was excused. H. J. Quehl, an expert accountant, was accepted as a juror. He lives in Newport. Frank Vising could not understand English, and was excused, and D. L. Ernest because his knowledge exceeded that of the attorneys in the case. Frank Griffith of Dayton was accepted. He is a cigarmaker. Theodore Cook and W. W. Southgate were excused as they had formed opinions. Henry Cramer acknowledged having been convicted of a felony and was excused. The panel was exhausted with six jurors, all told, secured.

Jacob Morberg, M. M. Allen, J. G. Herman, Charles Megerle, John M. Armstrong and Fred Lickert had all told of their opinions and were excused.

Evan Lewellyn, H. W. Hunnemeyer, Daniel G. Brumback, John Welshbille, A. A. Dorsey and David Brunk, Jr., were next called. Each man had a strong opinion.

Robert H. Miles, a teamster from Dayton was accepted as the seventh juror. He made the fourth Dayton to be accepted.

Peter Wern, another Dayton man, a ropemaker by trade, was accepted. Philip Herbst, William Conclin, Fred W. Lampe and L. H. Wilson were excused.

After examining several more the following were accepted: Charles Sederer, saloonkeeper, Newport.

Jesse Batson, motorman, Glen Park. John Lang, carpenter, Newport. Frank McIlvaine, boilermaker, Newport.

The state, at the conclusion of the choosing of the jury, at once challenged Peters, Quehl and McIlvaine. Court then adjourned. The state has five more challenges and the defense 15.

FOE TO THE LIQUOR TRAFFIC.

Some Very Strong Temperance Resolutions Passed by the M. E. Conference.

CLEVELAND, May 27.—Yesterday was a busy day in the Methodist Episcopal conference, and it was found necessary to hold three sessions. At the forenoon session the impressive ceremonies incident to the installation of the three bishops-elect—McCabe, Cranston and Hartzell—attracted much interest.

At the afternoon session temperance was the subject under discussion and the committee on temperance made its report, which was adopted, the main provisions being as follows: It declares it to be the duty of each member of the church to be a total abstainer; it condemns the license, asserting that the government becomes a partner in the traffic by permitting the sale of liquor; it declares that the only proper attitude of the church toward the traffic is relentless enmity, as the time will come when all good citizens must unite to oppose it and advance to its total extermination.

Important steps were taken in requesting the board of bishops to memorialize congress to so modify the internal revenue laws as to give them less the assemblance of statutes intended to legalize the liquor traffic, especially in states which have prohibition.

The evening session was devoted to a further consideration of the report of the committee on constitution.

Small Sample of a Cyclone.

CANTON, O., May 27.—A violent storm passed over the southern part of Stark county, near Bolivar, early yesterday morning. The sheep stable of William Becher was wrecked and a dozen sheep killed. A heavy tree was blown down at D. B. Henlin's farm, wrecking the barn, and the orchard of Jerry Calendine was destroyed. In Canton the streets were seriously flooded and a number of shade trees blown down.

Cuban Tobacco Contracts.

WASHINGTON, May 27.—The state department is officially informed that all contracts for Cuban leaf tobacco entered into before the publication of the order of Captain General Weyler prohibiting its exportation, will be respected, and that citizens of the United States, proving themselves to be bona fide owners of such tobacco prior to the promulgation of the order, will be permitted to export the same as heretofore.

Turkish Outrages Continue.

ATHENS, May 27.—Advices received here from the island of Crete state that the Turkish soldiers at Retimo are continuing their attacks upon the Christians, who have barricaded themselves within their houses at that port. Telegraphic communication with the island of Crete, excepting messages to and from the foreign consuls there, have been prohibited by the Turkish authorities.

Petition For Reform Prisoners.

CAPE TOWN, May 27.—A movement has been started in every town in South Africa having for its object the promotion of petitions to the Transvaal government, asking that leniency be shown to Colonel Rhodes, Messrs. Phillips, Farrar and Hammond and the other members of the reform committee, who are in prison, convicted of trying to overturn the republic.

Matabeles Repulsed.

BULUWAYO, May 27.—Captain Plumer's force met the enemy early on Monday, about 12 miles from here. The Matabeles were repulsed and were followed for a few miles by the troopers. BRIDGE WENT DOWN

A Crowded Street Car Carried With It.

FALL OF ONE HUNDRED FEET.

The Car Completely Submerged and All on Board Were Drowned—Sixty Bodies Recovered and Identified, but a Number of People Are Missing and Are Believed to Be Drowned.

VICTORIA, B. C., May 27.—A terrible accident occurred here yesterday by a bridge giving way, carrying a crowded street car with it. A sham fight and review was to take place at MacAuley's Point, near Esquimalt, yesterday afternoon and crowds were making their way there. All the tram cars were crowded. Two cars left Government street with upwards of a hundred people. The first got over Point Ellic bridge, which crosses at Victoria arm, safely, but when the other was about half way over the middle span of the bridge, about 150 feet in length, gave way, and the car plunged into the water, 100 feet below.

The car was completely submerged and all on board were drowned, with the exception of some of those on the platforms, who managed to save themselves by swimming ashore.

Sixty of the bodies have already been gotten out and the work of identification is proceeding. It is a difficult matter as a great many of the bodies are those of visitors.

So far as at present known the dead are:

Mrs. Adams and Fred Adams, her son.

James McCurdy of Port Townsend.

E. B. Carmichael and his wife.

J. B. Gordon of Vancouver, representative of Bradstreets.

Miss Flora Jackson.

James Henry Tyack.

Miss Ida Goodacre, Tacoma.

All of the above, with exceptions noted, belong in this city.

Besides the above, Mrs. Lot of Seattle and Miss Ida Goodacre are known to have been on the car and are missing.

Among the injured are:

Ex-Alderman W. A. Robertson, head badly cut.

Cannon Haddon, Victoria, bruised and nearly drowned.

G. W. Biggar, badly cut about the head.

Mrs. Biggar, bruised and nearly drowned.

Dr. Lang, badly bruised.

When the bridge broke there were several carriages on the bridge and these also were precipitated into the water.

Superintendent Wilson was driving one of these and had his five children with him. He succeeded in saving himself and four of the children, the fifth, a little boy, was wedged between the iron bars and was drowned.

The sad affair has cast a deep gloom over the city. As soon as the news of the accident reached MacAuley Point the review was brought to a speedy termination, as under the circumstances it was impossible, and the sham fight was abandoned.

The following terse utterance from the
Philadelphia Ledger seemed to strike
the Pittsburg Post about right. The
Post says:

Commenting on the statement of
General Alger, of Michigan, who has
McKinley's interests in charge, that he
"is not a radical protectionist, and doesn't
mean to rip up the tariff question," the
Philadelphia Ledger is moved to ask:
"Then, in the name of all that is in-
consistent, inconsequent and indecisive,
what is he? He is in favor of the gold
standard; he is in favor of the silver
standard; he is a radical protectionist;
he is not a radical protectionist. If he
is not the latter, he is nothing as a Re-
publican Presidential candidate, as his
candidacy is based upon nothing but
that, and, if that foundation is cut from
under his feet by one of his most trusted
representative political agents, what is
there left for him to stand upon? He
stands upon nothing. He sits—on the
fence, with one foot dangling in bewil-
dering uncertainty upon the free silver
and conservative tariff side, and the other
similarly dangling upon the sound
money, radical protection side." This is
the present judgment of an influential
journal, that before many weeks will be
found supporting McKinley as the Re-
publican candidate.

Changes Wrought by the Bicycle.

Some trades have been helped by the
bicycle. Others have been hurt. Indi-
vidual tradesmen have been in some in-
stances bankrupted. No invention since
the railroad engine has wrought such
far-reaching changes. As to whether the
commercial gains or losses are greatest
through its introduction it would be
hard to say.

Dry goods houses have suffered more
than most others. The money women
used to put into different costumes has
been in thousands of cases carefully
saved and invested in a bicycle. It is
true that, womanlike, the girls probably
think more of their bicycle clothes than
they do of the exhilarating exercise it-
self, but at most there can be no great
variety in a bicycle dress, and it must
be of such strong material as to wear a
considerable time. In self defense the
dry goods stores have been forced to go
into the sale of bicycles and bicycle
suits, and even then their trade is not
up to what it used to be.

Others who lose money are the doctors
and drug store proprietors. Certainly no
such life and health giving agency has
been bestowed on the world in many a
year as this winged wheel. The pure
air, the lively exercise, the sunshine and
exhilaration to the spirits that come
from bicycle riding chase away many
ailments and make people independent
of doctors and medicines. But if the
physicians and drug stores suffer, their
patients gain both in money and health.

The theater is the loser, too, from the
inroads of the wheel. Formerly of after-
noons the matinee was the thing. Now
it is the bicycle and the spin into the
country. Wheeling of evenings is also
so common as to sensibly thin the the-
ater audiences in pleasant weather. The
losses inflicted on livery stable keepers,
carriage makers and horse breeders will
foot up into the millions. Savings banks,
too, have suffered, because the thrifty
depositor now draws out his money to
buy a bicycle.

On the other hand, according to some
figures published lately by the New
York Herald, wheelmen spend annually
for their machines, repairs and excu-
sions not less than \$200,000,000. Capital
invested in bicycle manufacture is
\$60,000,000. The work gives employ-
ment in all its branches to 120,000 per-
sons. There are now 4,000,000 bicyclers
in the Union. One of the best results of
the craze is that we shall presently have
good roads in every portion of the United
States.

and Miss Mary Susan Cobb, of the coun-
ty, were married last evening at the
bride's home, by Rev. N. G. Grizzel.

FREE SILVER IN MEXICO.

Extract From the Speech of Secretary
Carlisle to the Workmen
of Chicago.

Our neighboring republic of Mexico,
with a constitutional government very
similar to our own, with an area of 767,
000 square miles and a population of only
about 12,000,000, with almost marvelous
natural resources awaiting development,
and offering a most inviting field for the
investment of capital and the employ-
ment of labor, has the silver standard of
value, gold not being in use, and if cheap
money is a blessing to the laboring man
he ought to be prosperous and happy in
that country. The Mexican dollar con-
tains 377.17 grains of pure silver, or nearly
six grains more than is contained in our
dollar, and yet, not being sustained by a
monetary system which keeps it at a par-
ity with gold, it is worth only about 53
cents in our money. Wages are paid in
silver and are very low in comparison
with the wages paid in this country for
the same services, in many instances not
being half as much, while the prices of
commodities generally are much higher
than they are here. The prices of im-
ported articles especially are exorbitantly
high in Mexico, because they have to be
paid for abroad in gold, and the depreci-
ation of their money is so great that it re-
quires nearly two dollars in silver to pay
one in gold.

Although our own silver dollar con-
tains less fine silver than the Mexican
dollar, one of ours is nearly equal in ex-
changeable value to two of theirs, be-
cause here the coinage is limited and the
government issues the coins on its own
account and has pledged its faith and
credit to keep them as good as gold—a
pledge that has been faithfully kept up
to this time, notwithstanding the com-
plaints and denunciations of our free
coinage opponents.

Under our policy the dollar paid to
the laboring man for his wages is just as
good and will purchase just as much in
the markets as the dollar paid to the
bondholders, or to any other class of
creditors; but if we are to have free and
unlimited coinage of legal-tender silver
for the benefit of the owners of the bull-
ion, the government and the people at
large would have no interest whatever in
the coins, and it would be grossly unjust
to require the Government to keep them
equal in exchangeable value to gold. The
dollars, as rapidly as coined, would be
delivered to the owners of the bullion
free of charge, and the government would
have no legal or moral right to tax all
the people of the country in order to pro-
cure gold with which to redeem these
private coins. The value of our dollar
would, therefore, be no greater than the
intrinsic or commercial value of the sil-
ver contained in it, and its purchasing
power in the markets would be dimin-
ished about one-half; but the wages of
labor would remain, for a long time at
least, substantially at the present rates,
or if they should be nominally increased
on account of the depreciation of the cur-
rency, experience in the past shows that
they would not increase in proportion to
the increase in the prices of commodities.
Rises in the rates of wages take place
very slowly, while the prices of commodi-
ties move rapidly, at some periods
changing several times in the course of a
single day, and these movements are
always more frequent and more harmful
when the currency is in an unsettled
condition.

A woman's headaches may come from several
causes. She may have a headache arising from
nervousness, or from digestive disturbances.
Nine cases in ten, her headaches come from dis-
orders peculiar to her sex. It may show itself in
the symptoms which are characteristic of a dozen
disorders. Thousands of times women have
been treated for the wrong disorders. Dr. Pierce's
Favorite Prescription was compounded for the
sole purpose of relieving womankind of these ills
and pains. Thousands of women have testified
that after taking treatment from several phys-
icians without benefit, the "Favorite Prescription"
cured them completely and quickly. It has
been used for over thirty years, and has an un-
broken record of success.

The woman who hesitates is invited to send 21
one-cent stamps to cover only the cost of mailing a
copy of Doctor Pierce's Common Sense Medical
Adviser, which contains plain, clear information
about all of the organs of the human body and
their functions.

Spring Medicine

Your blood in Spring is almost certain to
be full of impurities—the accumu-
lation of the winter months. Bad ven-
tilation of sleeping rooms, impure air
in dwellings, factories and shops, over-
eating, heavy, improper foods, failure
of the kidneys and liver properly to do
extra work thus thrust upon them, are
the prime causes of this condition. It
is of the utmost importance that you

Purify Your Blood

Now, as when warmer weather comes and
the tonic effect of cold bracing air is
gone, your weak, thin, impure blood
will not furnish necessary strength.
That tired feeling, loss of appetite, will
open the way for serious disease, ruined
health, or breaking out of humors and
impurities. To make pure, rich, red
blood Hood's Sarsaparilla stands un-
equalled. Thousands testify to its
merits. Millions take it as their
Spring Medicine. Get Hood's, because

BASE BALL.

Don't Miss the Opening Game Tomorrow—The Boys Show Up Well in Practice.

The members of Maysville's new ball team who are here were out at the park yesterday and put in the afternoon practicing. With one or two exceptions they all showed up well, and will come up to the high mark demanded by Maysville lovers of the sport.

Jimmy Curle will be here this evening. Kellner, who is said to be as fine a catcher as Lattimer, has been signed and will be here to-day.

Shepard, an Ohio pitcher who is said to be Dick Smith's superior, will probably be secured. The managers have wired him, and will know to-day.

The opening game will be played to-morrow, with the strong Pennsylvanians as opponents. Game called at 3 p. m. General admission 25 cents; ladies 15 cents.

The local managers thought they had succeeded in signing Lever and Lattimer, a very strong battery. Lattimer wrote yesterday that he couldn't come, and Lever who was due to arrive here yesterday has not shown up.

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHLOE,

The many friends of Mr. Ed. McDonald will be sorry to learn that his condition is still critical, and that he is unable to attend to his business.

Mr. William Wilson had about thirty-five hands at work on the county road of which he has charge for two days last week, and has graded the road sufficiently for a turnpike. All it needs is the gravel to make at least one free pike in the county. He has sufficient ambition. All he needs is time.

If the memorial services at Bethany the 30th are not better attended and a warmer feeling manifested there will not be enough friends to distribute the flowers, and the chill will freeze them before they wither. Yet this is Cabin Creek!

Sardis.

We had a good rain Monday and Tuesday.
Children's Day was observed at the M. E. Church, South, Sunday.

Deming & Co., the feather renovators, have moved from Sardis to Carlisle.

The farmers are busy setting tobacco. Many are using the "Bemis" tobacco setters.

Well Dickinson and Rev. S. L. Hockenberry left Sardis last week after doing considerable work in photography.

Sardis may be behind in some things, but it is not behind in horse swapping. One man made four swaps the other day.

Lightning struck the residence of Luther Wheatley Monday, tearing away the chimney. Fortunately no one was hurt.

The Sardis base ball team will open the season Saturday at Kenton's farm. They certainly have one of the strongest teams in Northeastern Kentucky.

An old German tramp passed through Sardis one day last week looking for carriage painting. He struck a poor place for his business when he came to Sardis, as carriages are very scarce here.

There was quite a lively crowd in town Tuesday to see the Jesse James show. G. W. Dye opened the exercises by taking the first look. The girls would rather talk to their beaux than take a look at the imitation of the dead hero.

FERRYBOAT CAPSIZED.

Eleven Persons Known to Have Been Drowned at Cairo, Illinois.

CAIRO, May 27.—The most terrible accident in the history of Cairo happened yesterday morning shortly after 8 o'clock, when the ferryboat Katherine capsized, and 11 persons were drowned.

The names of the lost are:
Charles Gilhofer.
Richard Thurman.
Bertha Stanley.

May Jones, all residents of Cairo.
Mrs. Shannon and baby of Bird's Point, Mo., and an unknown colored woman, all passengers on the boat.

Wood Rittenhouse, superintendent.
George Davis, colored, employed in painting the boat.

Louis Hall, colored, fireman.
Asbury Alexander, colored, deckhand of the boat's crew.

The ferry left her landing at 8 o'clock and was near the Illinois shore about a mile above here when the storm struck. She turned completely over and remained in that condition for some time. Her cabin, chimneys and bodies were carried away, nothing remaining but her hull and engines.

The captain, John F. Hacker, Engineer George McGee, Clerk Stanley Posey and Joseph Curry, a passenger, escaped from the wreck, and they assisted Dr. Orr of Wickliffe, Ky., and other passengers out from the debris, and they all climbed up on the overturned hull, which was partly submerged. They expected every minute it would sink, and Hacker, Posey and Curry swam ashore, while McGee remained with Orr, who could not swim.

Assistance was soon at hand and the survivors were brought to this city, while work to find the missing was commenced.

The bodies of Richard Thurman, Miss Bertha Stanley and George Davis have been recovered. The boat has since righted herself and lies with her stern considerably sunken.

Posey, the clerk, says the wind blew with terrific force, and the rain struck his face with a force like a bullet. He got a bucket to protect his head. Dr. Orr was badly injured about the head by falling timbers. He was standing in the cabin with Mr. Rittenhouse when the boat turned over, and he could not tell how he escaped.

State Democratic Convention.

On above account the L. and N. R. R. will sell round-trip tickets to Lexington at \$2.10 June 1st, 2nd and 3rd. Limited to June 16th.

MR. JOE KINDIG secured a car-load of nice horses here yesterday for the Eastern market. They will be shipped to-day from Daulton Bros.' stable to York, Pa.

ED. KELLEY, of Dover, a C. and O. section hand, was robbed of \$20 Tuesday while coming from South Ripley to Maysville on a train. He suspects a party who got off here. He will pay \$10 for arrest of thief and recovery of money.

It May Do As Much For You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure of all kidney and liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. At J. James Wood's drug store.

LOUISVILLE TOBACCO MARKET.

Another Week of Very Light Business—No Improvement in Prices.

The following is furnished by Glover & Durrett, of the Louisville Tobacco Warehouse:

Sales on our market for the week just closed amount to 1,464 hhds, with receipts for the same period 1,021 hhds. Sales on our market since January 1st amount to 74,246 hhds. Sales of the crop of 1895 on our market to this date amount to 70,894 hhds.

Our tobacco market has had another week of extremely light business with no general improvement in prices. During the week rains have occurred to some extent over the greater part of both the burley and dark tobacco belt and a great deal of transplanting has been done. In many sections half of the intended crop has been put on the hill and in some localities the planting is almost completed. The North Eastern part of the burley section has had the smallest amount of rain and in that locality the setting has not been extensive.

It is likely that receipts will rapidly increase within the next two weeks.

The following quotations fairly represent our market for burley tobacco, (1895) crop:

When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
